Answers

1.
 - (a) **Self Management** is the ability to manage ourselves such as time management, personal development, etc
 - (b) **Team Work** is the ability to fit ourselves in a team
 - (c) **Communication** is the ability to deliver information clearly both oral and written
 - (d) **Initiative & Enterprise** is the ability to assess and initiate things independently
 - (e) **Problem Solving & Decision Making** is the ability to know the problem and decide the best solution to solve
 - (f) **Planning & Organizing** is the ability to make a strategy and organize to execute the plan
2. All those keys are needed to support my job, but I learn a lot how to communicate better here. Because I thought as a developer will have less communication person to person, but I was wrong. As a developer, communication is important too, for proposing requirement, dealing with a technical issue, and especially as a customer supporting developer, I need to explain technical issue to non-technical role clearly and efficiently for better understanding.
